Re: Ontario Secondary School Literacy Test

The OSSLT NCVLE is active. Students have access to this resource that contains exemplary work and prep material.

Students will also practice the online version in a ‘test run’ before the test date to become familiar with test features and expectations.

Students will receive additional test prep materials to review the expectations of the test.

All four grade 10 English classes will practice the writing and reading pieces for the test in the coming weeks. There will be after school sessions for all interested students.

In short, at LCHS we practice, practice, practice. On test day—there is no mystery for our students.
